

METIS plus

METIS plus catches the eye by virtue of its valuable high-gloss surfaces in classical grey, pure white and sand. The light style of design is most convincing in both the single-coloured and mixed coloured versions. Natural oak and core walnut (only available for units exactly as described) are additional versions which represent a contrasting and natural enhancement to the range. Colour touches in high-gloss violet create some particularly exciting effects and complete the range of attractive colour compositions available in METIS plus.

Wardrobes

Hinge- and folding-door wardrobes according to the endless assembly principle and sliding-door wardrobes

- Hinge- and folding-door wardrobes can be combined with one another
- With plain doors, with optional mirror or with wooden contrast in natural oak or core walnut
- With optional all-round passepartout
- With optional top LED lamp (12 V; 2.4 W)
- 45° corner wardrobe (hinge-door)
- Intermediate units in two widths for a more open look, with optional functional inside TV fittings or unique, illuminated cabinet compartment
- Drawer frames and drawer carcass of intermediate units in standard grey
- Extra-wide panorama units of folding-door wardrobes without centre partition
- Sliding-door wardrobes in three widths, with optional high-gloss or mirror doors or with wooden contrast in natural oak or core walnut
- Wardrobe interior carcass and wardrobe interior fittings in standard white lacquer version
- Functional and high-quality **wardrobe interior fittings** (see separate chapter "Wardrobe interior fittings")

Beds

- Bed-on-legs system in four widths and three lengths:
Beds-on-legs with optional headboard in high-gloss version with aluminium coloured functional fillet integrated in headboard or with upholstered headboard; bed surround in optional high-gloss version, in wood version or in upholstered version; beds with optional standard legs or round legs or in optional aluminium colour or high-gloss chrome version
- Comprehensive range of bed accessories

In combination with the hülsta Sleeping System, the beds guarantee highest sleeping comfort. With its high-grade quality spring base frames and mattresses, the hülsta Sleeping System provides the perfect prerequisites for relaxing sleep (see separate chapter "**SLEEPING SYSTEMS**").

Ancillary units

- Consoles and chests in two heights; on optional 10 cm high legs, in optional aluminium colour or high-gloss chrome version, or on 3 cm high plinth legs
- A multitude of utility chests; utility chests on optional 10 cm high legs, in optional aluminium colour or high-gloss chrome version, or as wall units
- Cover shelves of ancillary units of rear-lacquered glass
- Ancillary unit handles in optional aluminium colour or high-gloss chrome version
- Ancillary unit inside carcass in standard white lacquer version
- Drawer frames of ancillary units in standard grey
- Angled shelves with storage shelf of glass, with optional lamp
- Mirrors

Quality features

- All wardrobe doors with cushioning bracket
- Wardrobe doors with metal handle and high-quality spring hinges
- All lamps VDE-tested
- Extra-wide fitted wardrobe shelves (160 and 200 cm) of 3-layered quality chipboard
- All-metal hinges
- Visually unobtrusive 2.5 mm drilled holes for wardrobes
- Centre partitions and end side-sections of wardrobes with special plinth adjustment
- **hülsta-SoftFlow**: Drawers of intermediate units and of ancillary units on hidden bearings incl. auto pull-in feature with cushioning bracket
- **hülsta-SoftGlide**: Doors of sliding-door wardrobes with pneumatic auto pull-in feature in opening and closing directions
- **hülsta-MagicClose**: All wooden hinge-doors with door hinge cushioning device

Important notes: Generally speaking, you as a dealer/qualified fitter are responsible for the correct wall mounting of the units. That is why wall mounting should only be carried out by properly trained and qualified fitters. hülsta supplies materials for mounting units on walls for nearly all the units and which should be used for safety and for constructional reasons. The assembly materials supplied by hülsta (plugs, screws) are only suitable for fitting components on to concrete in firmness class (C12/15).

For other materials (please see separate materials table in the wall composition chapter) we provide you with an assembly mortar set as an extra order. Please note that this assembly mortar set is also only suitable for the materials listed in the materials table. If walls are made up of other materials (e.g. plastered or lighter wall materials), one should use another method of mounting better suited to the load on site.

Please note that if the units are not mounted properly on the wall, there is a risk of the units falling down or tipping over – especially when alternative mounting materials acquired on site have been used.

For the reasons stated above it is absolutely essential to enquire about the composition of any walls before signing any contracts.

List of versions System colours

Model no.	Version
800	High-gloss grey
801	High-gloss pure white
820	High-gloss sand

Important notes:

Wardrobes:

With METIS plus wardrobes it is possible to order the carcass and the front in different versions. In this case, please state the model number for the carcass and front separately. Please state this clearly in the order!

Wardrobe exterior carcass and passepartout in grey lacquer (for the high-gloss grey version), in pure white lacquer (for the high-gloss pure white version) or in sand lacquer (for the high-gloss sand version); interior carcass in standard white lacquer version.

Ancillary units:

With METIS plus ancillary units it is possible to order the carcass, front and cover shelf in different versions. In this case, please state the model number for carcass, front and cover shelf separately. Please state this clearly in the order!

Standard version of cover shelves of ancillary units: in grey rear-lacquered glass (for the high-gloss grey version), in white rear-lacquered glass (for the high-gloss pure white version), in sand rear-lacquered glass (for the high-gloss sand version) or in violet rear-lacquered glass (for the high-gloss violet version); interior carcass in standard white lacquer version.

Beds:

Bed system with optional headboard in high-gloss version or with upholstered headboard, bed surround in optional high-gloss version, in wood version or in upholstered version

hülsta fabric collection: see separate "hülsta fabric collection" chapter!

Handle versions

Hinge-/folding-door wardrobes

With the METIS plus hinge- and folding-door wardrobes you can choose between the aluminium coloured and high-gloss chrome handle versions (without surcharge). The required handle version must be stated in the order. If no handle version is stated in the order, handle 013 is supplied ex-works.

Handle 013	Handle 026
Standard handle, aluminium coloured	High-gloss chrome
 Handle height: 114.9 cm	 Handle height: 114.9 cm

Handle versions

Ancillary units and intermediate units

With the METIS plus ancillary units and intermediate units you can choose between the aluminium coloured and high-gloss chrome (surcharge) handle versions. The required handle version must be stated in the order. If no handle version is stated in the order, aluminium coloured handles are supplied ex-works.

Standard handle, aluminium colour	High-gloss chrome (surcharge)
	

List of versions Colour touches

Model no.	Wardrobes, beds, (wall) utility chests and angled shelves	Model no.	Consoles, chests and angled shelves
832 833	Natural oak Core walnut	822	High-gloss violet
<p>Note: The colour touches natural oak and core walnut are only available for chosen components of wardrobes, beds, (wall) utility chests and angled shelves. These are specially marked.</p>		<p>Note: For consoles and chests: carcass and front in high-gloss violet, cover shelf of violet rear-lacquered glass For angled shelves: rear wall panel in high-gloss violet</p>	

Notes on delivery:

The majority of the carcasses are delivered standard as **fully connected units (glued)** so that the carcass **can not be disassembled**. There are however some **exceptions** to this rule:

Some carcasses are delivered as complete units but can be **disassembled into individual sections** in the final customer's home. These unit types are marked with a **1** in the type list.

Some carcasses are delivered **in individual sections** because of their size. These unit types are marked with a **2** in the type list.

The fronts with the number **2** are delivered separately and can therefore always be (dis-) assembled.

Labelling in type list drawings / assembly notes for wall units

The majority of units have two wall mounting points (= number of support boards), if these are to be fitted as wall units. This is not explicitly mentioned in the type list. If a different number of wall mounting points (= support boards) is required, this is marked in the drawings in the type list with numbers in black boxes. Please be sure to note here the information and notes in the "Wall composition" chapter!

3
4

Special combinations

Please also note the mattresses and base frames in the separate chapter "SLEEPING SYSTEMS"!

Lists of versions: see page 127

Special combinations consisting of a bed unit (bed and two drawer consoles) and a wardrobe.

The price of an entire special combination (bed unit and wardrobe) can be found in the grey shaded boxes!

Bed: Bed with headboard and surround frame in high-gloss version on standard legs (aluminium colour, powder coated)

Consoles: Consoles with 2 drawers on 3 cm high plinth legs

Wardrobe: Wardrobe with optional hinge- or folding-doors

Height reductions of hinge- and folding-door wardrobes at intervals of 1 cm without surcharge.

Important note:

Bed and consoles are possible in all leg variations. Bed optionally with an upholstered headboard, bed surround frame optionally in wooden version or upholstered version (against surcharge). **See here next page!**

Special-sized products for special combinations are possible immediately! **Pricing:** recommended retail price of the special combination + 15% plus the recommended retail prices of all the required special-sized products (see here the chapter on "Special-sized products")!

Please note: Height reductions of wardrobes remain free of charge!

Important: Choose a bed with headboard and surround frame in high-gloss version (all bed sizes possible – please state type number; see page 140), two consoles (consoles types 5052 and 5062 possible – please state type number; see page 143) as well as one of the wardrobes listed below.

Hinge-, folding- and sliding-door wardrobes

Notes on planning hinge- and folding-door wardrobes according to the endless assembly principle

Hinge- and folding-door wardrobes can be planned endlessly and combined with one another. Due to the various element widths one can create many total wardrobe widths. In this way the available floor space can be exploited to the full. For each wardrobe combination, the first element on the left is considered to be the basic unit, incorporating both outer side-sections. One can only include one basic unit in each combination. When adding on extension units, the right-hand side-section of the basic unit is employed as the end side-section of the complete combination. In the case of single-door hinge-door units as well as folding-door wardrobes one can choose between left- and right-hand hinges. The graphics shown on the next page give you an excerpt from our wardrobe assortment. We suggest using intermediate units for creating an alternative look. Sliding-door wardrobes are available in three different widths. Sliding-door panels are optionally available with high-gloss or mirror panels or with a wood contrast in natural oak or core walnut.

Standard interior fittings per unit: 2 fitted shelves, 1 clothes rod. All interior surfaces are in white lacquer version.

Dimensions

	without passepartout *	with passepartout *	with top LED lamp	with passepartout * and top LED lamp
Heights	229.6 cm	232.5 cm	234.6 cm	237.5 cm
Depths	61.6 cm (Hinge- and folding-doors) 67.7 cm (Sliding-doors)	61.6 cm (Hinge- and folding-doors)	72.0 cm	72.0 cm
Widths	see pages 132-138			

Height reductions of hinge- and folding-door wardrobes at intervals of 1.0 cm without surcharge (for sliding-door wardrobes against surcharge)

* Passepartout not possible for sliding-door wardrobes!

Hinge-door wardrobe

- Hinge-door wardrobes can be combined with folding-door wardrobes and intermediate units
- Front mirrors and front contrast in wooden version available at a surcharge
- Intermediate units for optical alternation
- Unit outside widths: 42, 52, 82, 102 cm (basic units)
40, 50, 80, 100 cm (extension units)
80, 100 cm (intermediate units)
- Unit inside widths: 38, 48, 78, 98 cm
- Outside depth: 61.6 cm
- Inside depth: 56 cm
- Door opening angle: approx. 110°

For calculating the total width when fitting the passepartout frame, please note the passepartout frame protrusion of 1.7 cm left and right!

Folding-door wardrobe with intermediate unit

- Folding-door wardrobes can be combined with hinge-door wardrobes and intermediate units
- Extra-wide panorama units in 160/162 and 200/202 cm width, without centre partition
- Front mirrors and front contrast in wooden version available at a surcharge
- Intermediate units for optical alternation
- Unit outside widths: 82, 102, 162, 202 cm (basic units)
80, 100, 160, 200 cm (extension units)
- Unit inside widths: 78, 98, 158, 198 cm
- Outside depth: 61.6 cm
- Inside depth: 56 cm

For calculating the total width when fitting the passepartout frame, please note the passepartout frame protrusion of 1.7 cm left and right!

Sliding-door wardrobe

- Fronts: High-gloss doors, mirror doors or doors with front contrast in wooden version
- Wardrobe outside widths: 242, 272, 302 cm
- Unit inside widths: 118, 133, 148 cm
- Outside depth: 67.7 cm (with handle)
- Inside depth: 56 cm

Lamps

All hinge-, folding- and sliding-door wardrobes are available with a top LED lamp. The top LED lamp is fitted above each element – 1 or 2 door – 12 V; 2.4 W (except panorama unit and sliding-door wardrobes: 2 top LED lamps). If required, a top LED lamp can be fitted centrally above each door. It is also possible to remove individual lamps with a price reduction.

Please include a sketch in all cases.

Switching is done by an external footswitch. A remote control unit is also available as an alternative, which is charged extra. The remote control unit incorporates one transmitter and one receiver which operate all the LED lamps. Extra transmitters are available against a surcharge. The footswitch is omitted when the remote control unit is employed.

Please note: When planning a passepartout with top LED lamps, please note that a distance of at least 2.0 cm to the ceiling must be observed.

Remote control unit

- Surcharge for remote control unit (transmitter + receiver) type **1601 =**
- Surcharge for extra transmitter type **1602 =**
- Surcharge for extra receiver type **1603 =**

Top LED lamp

- Surcharge for each additional lamp type **3690 =**
- This luminaire contains built-in LED lamps of the energy classes A++ to A. The lamps cannot be changed in the luminaire. 12 V; 2.4 W

Hinge-door wardrobes

For each project please remember to leave a 2.0 cm gap to the ceiling and at the side for assembly!

Lists of versions: see page 127

Hinge- and folding-door wardrobes can be combined with one another at will. Standard interior fittings per unit: 2 fitted shelves, 1 clothes rod.
 Height reductions at intervals of 1.0 cm without surcharge. Width reductions are not possible.
 Please state all versions clearly in the order!

Basic units with 2 outer side-sections (each 2 cm thick) For each wardrobe combination, the first element on the left is considered to be the basic unit, incorporating both outer side-sections. One can only include one basic unit in each combination. When adding on extension units, the right-hand side-section of the basic unit is employed as the end side-section of the complete combination. Interior TV unit fittings A for intermediate units 1 and 2

Can not be fitted in intermediate unit 3!

TV compartment including cable aperture in TV panel (usable inside dims.: 67.0 cm high, 71.0 (or 91.0) cm wide, 35.5 cm deep; max. load: 60 kg); 2 open compartments below for electronic equipment (usable inside dims. per compartment: 10.0 cm high, 35.0 (or 43.0) cm wide, 47.0 cm deep)

Please note:

- When interior TV unit fittings are included, the doors of the intermediate units are fitted with 165° hinges ex-works.
- The 2 fitted shelves, which are fitted standard in the intermediate unit behind the doors, are omitted and the price has already been deducted.
- Because of the 165° hinges on the intermediate unit including the interior TV unit fittings, the door hinges of any 1-door wardrobe units included which are situated directly next to the intermediate unit must be fitted on the side next to this intermediate unit!

Please observe the space requirements given by the electrical dealer (heat build-up)!

Surcharge for interior TV unit fittings A

for 80 cm wide intermediate unit	79601
for 100 cm wide intermediate unit	79611

Interior TV unit fittings B for intermediate units 1 and 2

Can not be fitted in intermediate unit 3!

TV compartment including cable aperture in TV panel (usable inside dims.: 67.0 cm high, 71.0 (or 91.0) cm wide, 35.5 cm deep; max. load: 60 kg) and with flat screen support, ideally adaptable; 2 open compartments below for electronic equipment (usable inside dims. per compartment: 10.0 cm high, 35.0 (or 43.0) cm wide, 47.0 cm deep)

The flat screen support can be adjusted 3-dimensionally. It is suitable for flat screens with a screen diagonal of 102-216 cm (40"-85"; please observe the usable dims. of the TV compartment; see above); max. load 45 kg.

Go to www.vivanco.de to check if your flat screen can be fitted on this flat screen support. Enter the name WTL6. After a few steps you can see if your flat screen TV is compatible with the flat screen support. Suitable for curved TV's.

Flat screen support compatible with VESA Norm standard: min.: 200 x 200 mm, max.: 600 x 400 mm

Please note:

- When interior TV unit fittings are included, the doors of the intermediate units are fitted with 165° hinges ex-works.
- The 2 fitted shelves, which are fitted standard in the intermediate unit behind the doors, are omitted and the price has already been deducted.
- Because of the 165° hinges on the intermediate unit including the interior TV unit fittings, the door hinges of any 1-door wardrobe units included which are situated directly next to the intermediate unit must be fitted on the side next to this intermediate unit!

Please observe the space requirements given by the electrical dealer (heat build-up)!

 <p>Inside width: 2 x 133 cm</p>	<p>A 2721</p>	<p>Please mark exactly in the front sketch or state in the order (from the left) which sliding-door panels are to be fitted with a wooden contrast in natural oak or core walnut.</p> <p>without surcharge</p>	<p>Please mark exactly in the front sketch or state in the order (from the left) which sliding-door panels are to be fitted with a mirror panel.</p> <p>Surcharge per sliding-door panel:</p>
 <p>Inside width: 2 x 148 cm</p>	<p>A 3021</p>	<p>383</p>	

Electrical opening system for sliding-door wardrobes

The sliding-door wardrobes can also be fitted with an optional electrical opening system. The sliding-door then opens or closes automatically when pushed slightly. Open sliding-doors will close automatically after approx. 2 minutes.

The electrical opening system is not possible when a reversed sliding-door wardrobe is required.

For each project please remember to leave a **10.0 cm gap** between the wardrobe carcass and the ceiling for assembly if the electrical opening system for sliding-door wardrobes is included!

Special sizes for sliding-door wardrobes with electrical opening system:

Height reductions are possible down to max. 180 cm height. For reasons of appearance, we also do not recommend the wardrobe being reduced below eye-level height.

Width reductions are generally not possible.

Depth reductions are possible for a maximum of 18 cm.

Electrical opening system
for 2-door sliding-door wardrobes

LED inside drawer lamps

METIS plus

LED inside drawer lamps

Consoles with drawers can be fitted with optional LED inside drawer lamps (7.5 V, 1.0 W powered by standard AAA 1.5 V batteries included - rechargeable batteries not possible; with automatic on/off switch).

Please state exactly in your order which drawer is to be fitted with LED inside drawer lamps.

This type of luminaire is exempted from obligatory labelling in accordance with EU-VO 874/2012 guidelines (Reason: battery-operated and/or <30 Lumen).

Surcharge for LED
inside drawer lamps
per drawer:

Magic-Tronic

The lamps are normally operated by an external footswitch. As an alternative we can also provide a **Magic-Tronic** switch, which is charged extra. By "stroking" the outer or top side of the unit at the same level as the invisible integrated sensor it is possible to switch all the lamps on and off ("Stroking method"). As an alternative the position of the hidden sensor can also be marked with a small metal plate on the furniture unit ("Marking method"). Lamps with a maximum power of 200 W can be operated by a Magic-Tronic unit (230 V). The footswitch is omitted when a Magic-Tronic unit is included.

Please be sure to observe the information and notes regarding the assembly position given in the chapter "Switch options for lamps"!

Switch options for lamps: Magic-Tronic

Magic-Tronic

The lamps are normally operated by an external footswitch. As an alternative we can also provide a Magic-Tronic switch, which is charged extra. By "stroking" the outer or top side of the unit at the same level as the invisible integrated sensor it is possible to switch all the lamps on and off ("Stroking method"). As an alternative the position of the hidden sensor can also be marked with a small metal plate on the furniture unit ("Marking method"). Lamps with a maximum power of 200 W can be operated by a Magic-Tronic unit (230 V). The footswitch is omitted when a Magic-Tronic unit is included.

Standard position of Magic-Tronic for angled shelves:

- for angled shelves of the CUTARO and METIS plus ranges: sensor is fitted **8 cm from the top rim and 8 cm from the left side in the rear wall panel**
- for angled shelves of the LUNIS range: sensor is fitted **16 cm from the rear rim and 9.6 cm from the left side in the shelf**

Standard position of Magic-Tronic for consoles and chests:

- for consoles and chests of the ELUMO II and LUNIS ranges: sensor is fitted **16 cm from the rear rim in the cover shelf and 15.0 cm at the side next to the bed**
- for consoles and chests of the MULTI-VARIS range: sensor is fitted **12 cm from the rear rim in the outer side next to the bed and in approx. 7-15 cm from the top rim of the unit**

Standard position of Magic-Tronic for MULTI-FORMA II wardrobes:

- for hinge- and folding-door wardrobes of the MULTI-FORMA II range: sensor is fitted **in the right passepartout in approx. 130 cm height** (Magic-Tronic is not possible for wardrobes without passepartout, in sliding-door wardrobes and in the room and niche system)

Alternative positions:

If the Magic-Tronic sensor is to be fitted **on the right in the rear wall panel or in the shelf of angled shelves**, in the **left passepartout of the wardrobe** or **at any position other than that stated as standard** (e.g., if a unit is planned in a niche so that there is insufficient space to the right of the unit), **please state this clearly in the order and mark the position in the sketch. If in doubt, please contact your hülsta customer advisor!**

Switch options for lamps: Magic-Tronic

Examples of use (schematic diagrams)

Example 1

Black point = Standard position of Magic-Tronic sensor for angled shelves

Notes:

The black point in the drawings is the area where the Magic-Tronic sensor is invisibly integrated. If the surface is „stroked“ at this position, the lamps are switched on or off.

If you would like to mark the position of the Magic-Tronic sensor on the furniture, you can fit a small metal plate supplied separately at the corresponding position.

for angled shelves of the CUTARO and METIS plus ranges

for angled shelves of the LUNIS range

Example 2

Black point = Standard position of Magic-Tronic sensor for consoles and chests

Notes:

The black point in the drawings is the area where the Magic-Tronic sensor is invisibly integrated. If the surface is „stroked“ at this position, the lamps are switched on or off.

If you would like to mark the position of the Magic-Tronic sensor on the furniture, you can fit a small metal plate supplied separately at the corresponding position.

for consoles and chests of the ELUMO II and LUNIS ranges

for consoles and chests of the MULTI-VARIS range

Example 3

Black point = Standard position of Magic-Tronic sensor for hinge- and folding-door wardrobes of the MULTI-FORMA II range

Notes:

The black point in the drawings is the area where the Magic-Tronic sensor is invisibly integrated. If the surface is „stroked“ at this position, the lamps are switched on or off.

If you would like to mark the position of the Magic-Tronic sensor on the furniture, you can fit a small metal plate supplied separately at the corresponding position.

for hinge- and folding-door wardrobes of the MULTI-FORMA II range

Remote control unit with changing colours

The lamps are normally operated by an external footswitch. The colour temperature of the LED lamps is cold white if a footswitch is used. A 4-channel remote control unit (= transmitter), which is charged extra, is also available as an alternative. Several lamps (up to a total load of a maximum 30 W per transformer and receiver) can be operated with each of the 4 channels. All 4 channels can be dimmed separately at the push of a button. The colour temperature of all 4 channels can be set from cold white (= the basic setting of the LED lamps) to warm white. If warm white is required, a radio remote control unit must be ordered. It is also possible to switch all channels on and off simultaneously with the "all on" or "all off" buttons. Up to 4 transmitters can operate as many receivers as required. Transmitters and receivers must be ordered separately. The footswitch is omitted when the remote control unit is used.

The following points must be noted with the radio remote control unit:

- The receiver must be positioned behind a rear wall or under plinth shelves (at least 20 mm space required under plinth shelves).
- The total wattage power of all lamps included per power supply unit/receiver must not exceed 30 W.
- 4 channels = 4 light groups
- 1 light group = x lights
- All lamps within a light group can be dimmed to the same brightness.
- The same light colour can be set for all lamps in all the light groups. This light colour is then valid for all the lamps.
- The remote control unit is not suitable for equipment operating on 110 V!

Important notes:

The information on basic settings for the LED lamps as well as setting the colour temperature do not apply to the MEGA-DESIGN and MULTI-VARIS ranges!
Please be sure to note the operating and programming instructions!

4-channel remote control unit with changing colours

4-channel remote control unit with changing colours

Price per transmitter	type	2016
Price per receiver	type	2017

Switch options for lamps: Remote control unit with changing colours

Examples of use (schematic diagrams)

Example 1

Lights inside a unit

Channel 1 operates (and dims) all the lights in light group 1, i.e. the spotlamp in the left cabinet

Channel 2 operates (and dims) all the lights in light group 2, i.e. the spotlamps in the unit above the TV bench

Channel 3 operates (and dims) all the lights in light group 3, i.e. the spotlamp in the right cabinet

Required are:

1 transmitter 1x type **2016**
1 receiver 1x type **2017**

Notes:

The total wattage power of all lamps included per power supply unit/receiver must not exceed 30 W. The same light colour can be set for all lamps in all the light groups. This light colour is then valid for all the lamps.

Example 2

Lights in units set apart

Channel 1 operates (and dims) all the lights in light group 1, i.e. the spotlamp and the light panels in the left cabinet

Channel 2 operates (and dims) all the lights in light group 2, i.e. the light panels and the spotlamps in the centre cabinet

Channel 3 operates (and dims) all the lights in light group 3, i.e. the spotlamp in the right cabinet

Required are:

1 transmitter 1x type **2016**
3 receivers 3x type **2017**

Notes:

The total wattage power of all lamps included per power supply unit/receiver must not exceed 30 W. The same light colour can be set for all lamps in all the light groups. This light colour is then valid for all the lamps.

Example 3

Lights in units set apart

Channel 1 operates (and dims) all the lights in light group 1, i.e. the spotlamps in the left, centre and right cabinet

Channel 2 operates (and dims) all the lights in light group 2, i.e. the top light panels in the left, centre and right cabinet

Channel 3 operates (and dims) all the lights in light group 3, i.e. the bottom light panels in the left, centre and right cabinet

Required are:

1 transmitter 1x type **2016**
3 receivers 3x type **2017**

Notes:

The total wattage power of all lamps included per power supply unit/receiver must not exceed 30 W. The same light colour can be set for all lamps in all the light groups. This light colour is then valid for all the lamps.

Usable bed inside height and space under bed

Note on usable bed inside height:

The support slats of the hülsta beds are delivered in the centre position, i.e. they can be adjusted by 3.2 cm upwards and downwards (exception: for LUNIS beds in the standard surface height 1 only by 3.2 cm upwards. If the slats are set in the lowest position, the **maximum usable bed inside height** is achieved.

In the case of some beds, especially the design-oriented beds, the bed inside height is comparatively low. This means that mattresses in combination with base frames that are somewhat higher (e.g. base frames with motor drive) are not held so well by the bed side sections. Please note that the usable bed inside height of beds with height adjustable support slats is reduced when these are set higher.

This is how to calculate the individual height from the data supplied with the base frames:

Example (for all beds): ELUMO II bed and hülstaflex basic B base frame (back and foot sections adjustable)

Max. usable bed inside height:
18.0 cm

LUNIS bed in standard surface height 1 and hülstaflex basic B base frame (back and foot sections adjustable)

Max. usable bed inside height:
14.0 cm

Note on space under bed:

The storage space underneath the base frame is calculated from the bed height minus the usable bed inside height.

Example ELUMO II bed: $42.2 \text{ cm} - 18.0 \text{ cm} = 24.2 \text{ cm}$.

A space of 15 cm below the bed is necessary for hülsta base frames with motor drives. This is guaranteed in nearly all hülsta beds. With hülstaflex premium Motor the motor lies above the support slats: greatest amount of space possible.

SPECIAL WISHES? COME TO US!

Maximum individuality!
Maximal flexibility!
hülsta makes most of your special wishes possible.

High-quality furnishing is an expression of your individuality and personality.

hülsta has perfected this idea. We have developed some innovative production systems, which can fulfil more special wishes than ever before. And it makes no difference what range you are thinking of. We will try everything to put your ideas into practice.

There are already a lot of special products available for ordering from the hülsta type lists to make things as easy for you as possible.

And if you do have a wish which is not quite so easy to implement, just give us a call or send us a mail or a fax. We have our own hülsta "Special Wishes Team" who are there to help you realise just these customer requests.

These colleagues are professionals when it comes to special products. They plan and calculate the possible products for you and even develop an alternative suggestion if the idea should turn out to be technically impossible.

Here is an overview of the hülsta range of special wishes:

- A lot of special products can simply be ordered via the type lists
- Special products are planned simply and professionally
- Competent colleagues advise you by phone, by fax and by mail
- You will be sent alternative suggestions if the idea is technically impossible
- Many special products are available without a surcharge
- Specially qualified carpenters and technicians implement your plans perfectly

Something missing? Then simply contact us. Our "Special Wishes Team" can make almost anything possible. And if you should happen to present us with an impossible case – no problem. You will be sent a good alternative suggestion which is sure to work.

Special heights, special widths, special depths

Special heights

Hinge-, folding- and sliding-door wardrobes can be reduced in height at intervals of 1.0 cm.

Special heights in stepped versions (not possible on sliding-door wardrobes) at a surcharge: surcharge per step:

Below eye-level we recommend fitting a top cover shelf made of panelling material. Please state in order!

Special widths

Only applies to hinge- and folding-door wardrobes.

Single-door units, left or right hinges, can be reduced down to 25 cm width (apart from profiled doors).

Twin-door units can be reduced at both sides down to 50 cm total width (apart from profiled doors).

Interior fittings, such as drawers and other fittings cannot be reduced in width.

For notes on width reductions on MULTI-FORMA II sliding-door wardrobes please see special-sized products for MULTI-FORMA II!

Special depths

Depth reductions are made on side sections, plinths, cornices and shelves.

Interior fittings, such as drawers and other fittings cannot be reduced in depth.

A max. reduction of 30.0 cm is possible on hinge- and folding-door wardrobes.

A max. reduction of 9.0 cm is possible on profiled hinge-doors.

For sliding-door wardrobes, a max. reduction of 30.0 cm is possible (max. 18 cm in combination with the electrical opening system for MULTI-FORMA II).

Please note that for technical production reasons not every special depth can be achieved:

2.5 cm standard reduction between 0 and 2.5 cm

5.0 cm standard reduction between 4.5 and 5.0 cm

27.5 cm standard reduction between 27.0 and 27.5 cm

Side and rear sloping

Notes on calculating sizes of sloping units

Side sloping

Sloping is only possible on single-door units. The door hinge (left or right) is positioned on the taller outer side of the unit.

Measurements required:

- H 1 = Room height
- H 2 = Height of slope
(If a space is required between the wall and the wardrobe/unit, please state the exact distance.)
- B 1 = Width of slope
- B 2 = Width of slope
- G = Total width
- S = Wardrobe width

Please note!

- If the slope cuts across the position of a handle, the handle of this door only is positioned further down in production.
- As floors, ceilings and walls are never exactly straight, the exact room size must be measured using a spirit level.
- If a cornice is fitted, please state if this is to be continued in the sloping section.
- For CUTARO and ELUMO II wardrobes with a passepartout section, the passepartout for the complete wardrobe is set back by 2 cm (no forward protruding any more).

Rear sloping

Rear sloping is possible on all wardrobe units.

Measurements required:

- H 1 = Room height
- H 2 = Height of slope
(If a space is required between the wall and the wardrobe/unit, please state the exact distance.)
- T 1 = Depth of slope
- T 2 = Depth of slope

(only possible on plain, straight hinge-doors).
Please mark the doors clearly in the order!

Surcharge for 165° hinges per hinge-door: **180**

High-gloss care set

Polish, polishing sponge and polishing cloth (incl. instructions)
for protecting and maintaining the high-gloss surfaces

36

Special colours

All the hülsta lacquer colours are possible for nearly all the hülsta ranges.
Availability and prices on request.

Wall composition / assembly instruction

Important notes:

The composition of walls must be ascertained before concluding a contract and be checked by a qualified fitter before assembly takes place.

Assembly may only be carried out by a qualified fitter under careful observation of the assembly instructions.

The plastic Rawl plugs with the type name SX 8 x 65 from the Fischer Company supplied by hülsta as a standard set are only suitable for concrete \geq C12/15, if the wall composition and compression strength corresponds to the table below. Under no circumstances must a unit be assembled on light masonry.

Furthermore, we provide a mounting set with assembly mortar from the Fischer Company for the types of walls listed below (see assembly mortar set below). Again, assembly must be carried out by a qualified fitter under careful observation of the wall composition and assembly instruction. The compression strength levels stated below must be met under all circumstances.

Materials table

with a description of which sets are to be used with the following types of walls:

Standard set (SX 8 x 65)	Assembly mortar set only suitable for the materials stated below!	
Concrete C12/15 Compression strength \geq 15 N/mm ² 	 Building bricks Mz 12 Compression strength \geq 12 N/mm ²	 Solid blocks of light concrete V2 Compression strength \geq 2 N/mm ²
	 Limestone blocks KS 12 Compression strength \geq 12 N/mm ²	 Perforated blocks of light concrete Hbl 2 Compression strength \geq 2 N/mm ²
	 Perforated sand lime bricks KSL12 Compression strength \geq 12 N/mm ²	 Aerated concrete PP2 Compression strength \geq 2 N/mm ²
	 Vertically perforated bricks HLz 12 Compression strength \geq 12 N/mm ² Bulk density \geq 1.0 kg/dm ³	

A different and more suitable type of mounting must be chosen by a qualified fitter in all other cases. hülsta cannot accept any responsibility for the choice of any other types of mounting!

Please note that if the units are not mounted properly on the wall, there is a risk of the units falling down or tipping over – especially when alternative mounting materials acquired on site have been used.

Generally speaking, you as a dealer/qualified fitter are responsible for the correct wall mounting of the units.

Mounting sets

Labelling in type list drawings / assembly notes for wall units

The majority of units have two wall mounting points (= number of support boards), if these are to be fitted as wall units. This is not explicitly mentioned in the type list. If a different number of wall mounting points (= support boards) is required, this is marked in the drawings in the type list with numbers in black boxes. Every support board requires four mounting screws.

3 = 3 support boards

4 = 4 support boards, etc.

One **assembly mortar set** is sufficient for up to a maximum of 3 support boards or 4 wall side-panels.

Important note: Depending on the composition of the wall (see wall types illustrated above), assembly must be carried out using the special assembly mortar set and a standard trade mastic tool which are the basic essentials for safe and clean workmanship.

Standard set

The standard set consists of 4 plastic Rawl plugs (SX 8 x 65) and 4 mounting screws and is sufficient for 1 support board. The standard sets are included in the packet of fittings to match the number of support boards.

Assembly mortar set for up to a maximum of 3 support boards consisting of:

- 9x injection retaining sleeve
- 9x screw-in sleeve
- 1x injection cartridge
- 2x static mixer
- 1x assembly instructions

Please use the mounting screws from the standard set (supplied free of charge).

Example of order:

- Add up number of support boards for all existing unit types
 - Divide the sum by "3"
 - Round up the result to a full number
- = Number of assembly mortar sets required

M2

Wardrobe interior fittings

With these high-quality interior fittings for wardrobes hülsta has developed a system that meets every individual furnishing needs. The great number of different unit types, a wide spectrum of sizes, as well as a variety of surface versions underline the great versatility and variability available. The wardrobe interior fittings can be used in every kind of wardrobe – hinge-door, folding-door and sliding-door wardrobes as well as in the MULTI-FORMA II room system. There are many different sets of drawers for quick and easy planning.

Contents

	Page
Range introduction, list of versions	238
Fitted shelves, protective mat	239
Centre partition kits, clothes lift	240
Clothes rods, tie holders, trouser holders, inside mirror, fabric boxes	241
Important notes on fitting drawers in wardrobes	242-243
Sets of drawers	244-246
Fitting at any level	247-248
Accessories	249
Cover for sets of drawers	250
Wardrobe interior fittings in special width	251

Functional units

A multitude of functional components are the main features of the wardrobe interior fittings:

- Fitted shelves for straight and profiled units, also for panorama units and corner units
- Clothes rods for straight units and corner units
- LED illuminated shelves for straight units and hinge-door corner wardrobe, with automatic switch
- Centre partition kits and clothes lift
- Tie and trouser holders, also extendable
- Inside mirror for fitting on inside of wardrobe doors
- Fabric boxes

Drawers

For optimal use of wardrobes, all the drawers are available as single units or in sets. Because they can be fitted at any level it is possible to design wardrobe interior fittings individually.

- Drawers with wooden or glass front and shoe drawer
- Compartment for ties or linen for drawers with glass front
- Sets of drawers composed differently and made up of the units stated above
- For fitting at any level with carcasses, different drawers and accessories

Quality features

- **hülsta-SoftFlow:** All drawers on hidden roller bearings with auto pull-in feature with brake as fully pull-out units
- Tie holder in high-quality chrome version
- Drawer frames in standard grey
- Simple assembly due to the use of special brackets
- All inside surfaces have a side distance piece to ensure easy opening when the doors are open
- All wooden components optionally in different versions

List of versions

Model no.	Versions
973	White lacquer
974	Light interior veneer
975	Dark interior veneer

Please state in the order the name and the model number of the range which the wardrobe interior fittings are intended for.

Handle versions

The drawer handles for the wardrobe interior fittings are delivered standard in the same version as the wardrobe door handles in which the interior fittings are incorporated (high-gloss chrome or matt chrome). If the wardrobe door handles are required in wood or lacquer versions, please state the version of the drawer handles for the interior fittings clearly in the order!

Important notes on fitting drawers in wardrobes

Additional accessories (e.g. drawers, sets of drawers, etc.; see pages **244-248**) can be fitted in hinge-, folding- and sliding-door wardrobes as well as in the MULTI-FORMA II room system. These accessories must always be fitted on both sides of the wardrobe side sections or centre partitions, i.e. the accessories have the same width as the inside width of the appropriate wardrobe unit (see examples **1** and **3-6**). It is, however, also possible to fit stand-alone accessories fitted at one side only. In this case, a cover for a set of drawers must be ordered extra (see examples **2, 7** and **8**). It is not possible to fit accessories that stand alone at both sides!

We differentiate between accessories for hinge-door wardrobes and for the MULTI-FORMA II room system as well as accessories for folding- and sliding-door wardrobes in the wardrobe interior fittings.

Drawers in the accessories for **hinge-door wardrobes** and for the **MULTI-FORMA II room system** are fitted with narrow side-support panels at both sides (see each of the left-hand wardrobe units in examples **1** and **2**).

Since folding- or sliding-doors cannot be opened at the sides as far as hinge-doors for constructional reasons, the accessories for **folding- and sliding-door wardrobes** are fitted with a narrow support panel at one side and with a wide support panel at the other side. That is why the accessories for folding- and sliding-door wardrobes are divided into accessories as **"accessories left" = L** (i.e. the wide side-support panel is fitted on the left-hand side of the accessory), and **"accessories right" = R** (i.e. the wide side-support panel is fitted on the right-hand side of the accessory).

With **folding-door wardrobes**, the wide support panel of the accessory must be fitted on the side of the folding-door unit where the folding-doors are mounted (see each of the middle and right-hand wardrobe units in examples **1** and **2** as well as example **3**). Please note: A sideward distance of up to a max. 5 cm must be kept to the side wall so that the folding-doors can be opened widely enough. The space depends on the intended handle. We recommend getting advice from hülsta if necessary.

With **2- and 4-door sliding-door wardrobes**, the wide support panel of the accessory must always be fitted on the inside of the sliding-door unit (see examples **4** and **6**). The same applies to the outside units of a **3-door sliding-door wardrobe**. The accessory of the middle unit must always be fitted with the wide support panel on the left (see example **5**). If the accessory is fitted as a stand-alone unit at one side with a cover for a set of drawers (see examples **2, 7** and **8**), the same applies as described above.

If 2 sets of drawers are fitted adjacently please use the centre partition kit shown on page **240** (see example **3**). The standard cover shelves of the sets of drawers are deducted from the price.

Please note: The sketches on pages **244-248** show the accessories for hinge-door wardrobes (i.e. with narrow side-support panels at both sides)!

Example 1 Hinge-/folding-door wardrobe

- A:** Accessory in hinge-door unit with narrow support panels at both sides
- B:** Accessory in folding-door unit with wide support panel at the side, where the door is mounted

Example 2 Hinge-/folding-door wardrobe

- C:** Accessory, stand-alone at one side, in hinge-door unit with narrow support panels at both sides
- D:** Accessory in folding-door unit, stand alone, at one side, with wide support panel at the side, where the door is mounted

Example 3

Folding-door wardrobe:
Panorama unit with 5 Raster high centre partition kit

E: Accessory in folding-door wardrobe with wide support panel at the side, where the door is mounted

Example 4

2-door sliding-door wardrobe

F: Accessory in sliding-door wardrobe with wide support panel at the side on the inside of the sliding-door unit

Example 5

3-door sliding-door wardrobe

G: Accessory in sliding-door wardrobe with wide support panel at the side on the inside of the sliding-door unit
H: Accessory in sliding-door wardrobe in the centre unit with a standard wide support panel on the left-hand side

Example 6

4-door sliding-door wardrobe

I: Accessory in sliding-door wardrobe with wide support panel at the side on the inside of the sliding-door unit
J: Accessory in sliding-door wardrobe in the left-hand centre unit with a standard wide support panel on the left-hand side
K: Accessory in sliding-door wardrobe in the right-hand centre unit with a standard wide support panel on the right-hand side

Example 7

2-door sliding-door wardrobe

L: Accessory, stand-alone at one side, in sliding-door wardrobe with wide support panel at the side on the inside of the sliding-door unit
M: Since the accessory in the right-hand unit of the sliding-door wardrobe is mounted as a stand-alone unit on the side and does not reach as far as the inside wall of the sliding-door unit, the wide support panel can also be fitted on the outer side wall of the sliding-door unit.

Example 8

4-door sliding-door wardrobe

N: Accessory, stand-alone at one side, in sliding-door wardrobe with wide support panel at the side on the inside of the sliding-door unit
O: Accessory, stand-alone at one side, in sliding-door wardrobe in the left-hand centre unit with a standard wide support panel on the left-hand side
P: Accessory, stand-alone at one side, in sliding-door wardrobe in the right-hand centre unit with a standard wide support panel on the right-hand side
Q: Since the accessory in the right-hand unit of the sliding-door wardrobe is mounted as a stand-alone unit on the side and does not reach as far as the inside wall of the sliding-door unit, the wide support panel can also be fitted on the outer side wall of the sliding-door unit.

Sets of drawers

Sets of drawers as a complete unit consisting of top cover shelf, block sides and different drawers. If sets of drawers are stacked, the cover shelf of the bottom set of drawers is omitted and can be deducted from the price. A cover for a set of drawers must be fitted for mounting the units as stand-alone units at one side. If 2 sets of drawers are fitted adjacently please use the centre partition kit (see page 240). For fitting at any level and accessories: see pages 247-249!

Cover for sets of drawers

The cover for sets of drawers is necessary when sets of drawers are fitted as stand-alone units at one side in the wardrobe (example: a 48 cm wide set is fitted in a wardrobe with an inside width of 98 cm so that one side of the set is fitted on the interior side of the wardrobe and the other side of the set stands alone in the wardrobe centre).

See here page 250!

Fitting at any level

Besides being able to fit complete sets of drawers, it is also possible to plan wardrobe interior fittings individually. All carcasses, consisting of the top cover shelf and block sides, can be fitted individually with different drawers. A cover for a set of drawers must be fitted for mounting the units as stand-alone units at one side in a wardrobe. If 2 carcasses are fitted adjacently, the centre partition kit must be used (see page 240). Complete sets of drawers: see pages 244-246! Accessories: see page 249!

Please state clearly in the order if the carcasses are to be fitted in a hinge-door wardrobe or in the MULTI-FORMA II room system!		for wardrobe inside widths	Type no. for hinge-door wardrobes and MULTI-FORMA II room system	Type no. for folding- and sliding-door wardrobes

Accessories

The drawers in the sets of drawers and the carcasses for fitting at any level can be fitted with drawer compartments. The pull-out trouser holder is meant for fitting on the inner side of the wardrobe. The storage bowl enhances the pull-out trouser holder in the form of an additional extra.

Cover for sets of drawers

(stand-alone at one side); consisting of block sides and a top cover shelf. The cover for sets of drawers is necessary when sets of drawers and carcasses are fitted as stand-alone units at one side in the wardrobe (example: a 48 cm wide set is fitted in a wardrobe with an inside width of 98 cm so that one side of the set is fitted on the interior side of the wardrobe and the other side of the set stands alone in the wardrobe centre). Note: The standard cover shelf of the sets of drawers or carcasses is automatically removed from the set or carcass. The cost of the special cover for the set of drawers or carcasses is offset against the cost of this standard cover.

If the cover for sets of drawers is to be fitted in the MULTI-FORMA II room system, please add a "1" to the type number (e.g. 404131). Please state clearly in the order!		for wardrobe inside widths	Type no. for hinge-door wardrobes and MULTI-FORMA II room system	Type no. for folding- and sliding-door wardrobes

Wardrobe interior fittings in special width

In order to exploit the area available inside the wardrobes in special width optimally, it is also possible to order the wardrobe interior fittings in special width for these units.

Cover shelf and side panels in special width type 99911
See below for two examples of calculation!

Hinge-door wardrobes and MULTI-FORMA II room system

The standard sets of drawers and carcasses for fitting at any level in hinge-door wardrobes and in the MULTI-FORMA II room system have slim 4.5 cm wide side panels fitted at both sides (see here pages 242-243). These panel sizes are different in the case of wardrobe interior fittings in special width.

If a hinge-door wardrobe, for example, is required in the special wardrobe inside width of 64 cm, the wardrobe interior fittings must be fitted in the next smaller standard size – that means the required wardrobe interior fittings are in a width of 58 cm. The difference in width of 6 cm that results is balanced out by making the 4.5 cm wide side panels 3 cm wider (= 7.5 cm each).

Special wardrobe inside width of 64 cm

64

Standard width of wardrobe interior fittings of 58 cm

58

The panel width now comes to 7.5 cm each

3 4,5	4,5 3
+++	+++
7,5	7,5

Folding-door and sliding-door wardrobes

The standard sets of drawers and carcasses for fitting at any level in folding- and sliding-door wardrobes are fitted with a slim 4.5 cm wide side panel at one side and a wide 14.5 cm wide side panel at the other side (see here pages 242-243). The panel size of the slim panel is different in the case of wardrobe interior fittings in special width.

If a folding-door wardrobe, for example, is required in the special wardrobe inside width of 82 cm, the wardrobe interior fittings must be fitted in the next smaller standard size – that means the required wardrobe interior fittings are in a width of 78 cm. The difference in width of 4 cm that results is balanced out by making the 4.5 cm wide side panel 4 cm wider (= 8.5 cm), the 14.5 cm wide side panel always retains its original width.

L/R = left/right (see here pages 242-243)

Special wardrobe inside width of 82 cm

82

Standard width of wardrobe interior fittings of 78 cm

78

Large side panel width always remains in original size of 14.5 cm, the slim side panel width is now 8.5 cm
