

## now! sleeping PERFECT FOR SLEEPING AND CHILLING.

The key question when buying a bed: Boxspring or no Boxspring? The beds with a double portion of elasticity invite you to snuggle up, lounge or jump around and even have a chat. If you're not so keen on the super extra-strong springs of these cosy units, with now! sleeping you can simply drop quite classically into a fresh, beautifully designed bed – on a core composed of thousands of pocket springs or on soft cold foam, in textile, wood or lacquer, perfectly stylish and fitted out with all the extra comfort features.

### Planning notes now! boxspring

#### Planning a bed

##### Planning step 1

##### Choice of boxspring bed

(with 7-zone cylinder pocket spring core and anti-slip top surface) in the required size and cover version

Notes: 100 to 140 cm wide boxspring beds consist of 1 box, boxspring beds from 160 cm width of 2 boxes. Please be sure to state clearly the version of the headboard incl. box in the order!

##### Planning step 2

##### Choice of legs

(set of 4 for 100 to 140 cm width or set of 8 from 160 cm width) in the required height

Note: Legs are absolutely essential for every boxspring bed.

##### Planning step 3

##### Choice of mattresses

in the required version (with 7-zone cylinder pocket spring core or 7-zone HR cold foam core), firmness level and in the matching dimensions

##### Planning step 4

##### Choice of optional Topper

in the required version (with Visco or comfort climate core) in the matching dimensions

##### Planning step 5

##### Choice of ancillary units

in the required size and version

##### Planning step 6

##### Choice of optional accessories for the ancillary units

- such as:
- Glass shelf with LED lamps
  - Glass shelf with RGB LED lamps
  - LED light strip

### Boxspring bed heights

#### Total height:

The Boxspring beds have different total heights (from approx. 106.0 cm to approx. 115.0 cm). This height corresponds to the height of the boxspring headboards.

#### Surface height:

The surface height is calculated by adding the legs height, the box unit height, the mattress height and the topper height:

Height of desired legs = free space below the bed

Box unit height: approx. 20.0 cm

Mattress height: approx. 16.0 or 19.0 cm

Topper height: approx. 5.0 or 6.0 cm

**This results in a minimum or maximum surface height of approx. 45.8 cm or approx. 63.7 cm!**

## Planning notes now! time and now! no.14

### Planning a bed

#### Planning step 1

Illustration 1

Illustration 2

**Choice of bed**  
in the required version and size

Please note: All beds with support slats for base frames and mattresses adjustable in height by 3.2 cm downwards and upwards.

Please note: now! time beds are delivered with standard round legs (as in illustration 1). They are also available with optional rectangular legs (no surcharge; as in illustration 2). Please state clearly in the order!

Please note: The now! no. 14 bed surround frame is split visually in the middle in lacquer versions (by V-shaped gap; see illustration), the bed surround frame is in one piece in wooden versions.

#### Planning step 2

**Choice of console / chest**

Please note: Please state all the versions clearly in the order!

#### Planning step 3

**Choice of (optional) cover shelf**  
in the required version

Please note: now! time consoles incl. cover shelves. For now! time chests the cover shelves must be ordered separately, so that full-length cover shelves are also available for chests placed adjacently.

Please note: For now! no. 14 the cover shelf is optional and can only be used for assembly units without a glass bonnet.

#### Planning step 4

**Choice of optional accessories**

such as:

- LED bed lamps
- LED light strip for console
- Glass shelf with LED lamps
- Glass shelf with RGB LED lamps
- Further chests
