LIVING

NAVIS LIVING

NEW range

NAVIS makes a strong statement about standards and style in the room. Magnanimous in radiance and elegant in form – NAVIS opens a new class in modern interior design. Gentle curves in intricate glass which flow smoothly into fine lacquer surfaces, natural wood and strong metal provide every unit in the range with the charisma of a most expressive solitary unit. The almond shape harmonises perfectly with structured lacquer and ceramics; an optional substructure and intelligent ambience lighting add a touch of lightness and plasticity to the range.

Contents

	Page
Range introduction, lists of versions	2-4
Suggested combinations	6-7
2 - 4 Raster lowboards, both sides elliptical	8-15
3 - 4 Raster lowboards, one side elliptical	16-21
Media accessories for lowboards, column system, flat screen supports	22
Side- and highboards on metal substructure	23-24
Highboards, wall extension units	25
Wall units	26
Cabinet, angled shelves	27
Accessories for units	28-29
Lamps, remote control	29
Dining rooms, coffee tables	30
General information:	
Special-sized products, special articles	31
Switch options for lamps: remote control	32-33
Important notes: quality of walls / assembly instruction	34

Lists of versions

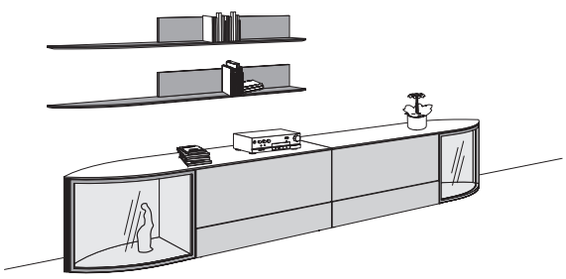
Model no.	Straight fronts*	Model no.	Elliptical fronts **, angled shelves, metal substructures	Model no.	Cover shelf and side(s)
648	Pure white lacquer	**648**	Pure white lacquer	**648**	Pure white lacquer
665	Anthracite structured lacquer	**665**	Anthracite structured lacquer	**665**	Anthracite structured lacquer
053	Core walnut natura			**160**	Ceramic zaha stone
051	Oak natura			**161**	Ceramic storm nero

Notes:
* Interior carcase of straight fronts in standard grey lacquer
** Interior carcase of elliptical fronts in chosen version (pure white lacquer or anthracite structured lacquer)

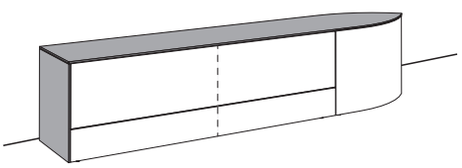
Explanation of versions

Dark grey shading in the sketches
= Components in pure white lacquer or anthracite structured lacquer

Light grey shading in the sketches
= Components in pure white lacquer, anthracite structured lacquer, core walnut natura or oak natura



Cover shelf and side(s):
Cover shelf and side(s) in versions of pure white lacquer, anthracite structured lacquer, ceramic zaha stone or ceramic storm nero



Important notes

Interior carcase version:
Interior carcase of straight fronts in standard grey lacquer, interior carcase of elliptical fronts in chosen version (pure white lacquer or anthracite structured lacquer)

Glass versions:
Glass fronts with the pure white lacquer version in clear glass, glass fronts with the anthracite structured lacquer version in stained glass. Fitted glass shelves in clear glass.

Metal substructure versions:
Metal substructures powder coated in pure white lacquer or anthracite structured lacquer. Please state the required version clearly in the order!

Standard interior fittings:
Fitted wooden shelves are fitted behind doors at 2 Raster intervals and fitted glass shelves are fitted behind glass doors.

Drawer frames in grey

Wall units:
Lowboards and wall units always incl. wall bracket

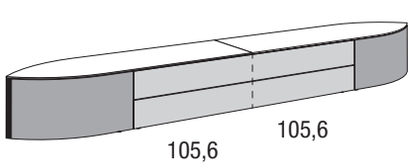
Combinations of floor and wall units:
If floor and wall units are combined within an arrangement, there must not be any skirting boards in the room near the floor units, otherwise they must be removed.

Max. load:
Maximum load of wooden and glass shelves (up to 70.4 cm width) as well as drawers: 25 kg
Max. load of wooden and glass shelves (between 70.4 and 105.6 cm width): 15 kg; from 105.6 cm width: 10 kg
Max. load of cover shelves: 35 kg per metre length for floor units. Please also note any maximum loads which may be stated in the type list for the individual units!

hülsta-Push-to-open: Drawers, flaps and doors with hülsta Push-to-open

Information on the sketches

Split drawer frames:
Split drawer frames are used for drawers in front widths of 140.8 cm and 176.0 cm (the partitions are shown by dotted lines in the sketches). The front widths of the drawers are illustrated at the sketches of the units so that you can order suitable accessories for the drawers.



Range introduction

Wall units in general

Important notes: Generally speaking, you as a dealer/qualified fitter are responsible for the correct wall mounting of the units. That is why wall mounting should only be carried out by properly trained and qualified fitters. hülsta supplies materials for mounting units on walls for nearly all the units and which should be used for safety and for constructional reasons. The assembly materials supplied by hülsta (plugs, screws) are only suitable for fitting components on to concrete in firmness class C12/15.
For other materials (please see separate materials table in the wall composition chapter) we provide you with an assembly mortar set as an extra order. Please note that this assembly mortar set is also only suitable for the materials listed in the materials table. If walls are made up of other materials (e.g. plastered or lighter wall materials), one should use another method of mounting better suited to the load on site. Please note that if the units are not mounted properly on the wall, there is a risk of the units falling down or tipping over – especially when alternative mounting materials acquired on site have been used.
For the reasons stated above it is absolutely essential to enquire about the composition of any walls before signing any contracts.

Wall units

If lowboards are included as wall units, a maximum load per unit of 15 kg per metre must not be exceeded for reasons of stability! Max. load 15 kg per metre:

179.2 cm width: 25.0 kg
214.4 cm width: 30.0 kg
215.6 cm width: 30.0 kg
249.6 cm width: 30.0 kg
250.8 cm width: 30.0 kg
284.8 cm width: 35.0 kg
286.0 cm width: 35.0 kg
321.2 cm width: 40.0 kg
355.2 cm width: 40.0 kg
356.4 cm width: 40.0 kg

The wall units can only be fitted on absolutely solid walls. Light masonry is not suitable for this purpose.

For each project please remember to leave a 2.0 cm gap at the top to be able to mount units.

Labelling in type list drawings / assembly notes for wall units

Labelling in type list drawings / assembly notes for wall units
The majority of units have two wall mounting points (= number of base plates), if these are to be fitted as wall units. This is not explicitly mentioned in the type list. If a different number of wall mounting points (= base plates) is required, this is marked in the drawings in the type list with numbers in black boxes. Please be sure to note here the information and notes in the “Wall composition” chapter!

4

Notes on delivery

Notes on delivery:
The majority of the units are delivered standard as **fully connected units (glued)** so that the carcase **cannot be disassembled.** There are however some **exceptions** to this rule:

Some carcases are delivered as complete units but can be **disassembled into individual sections** in the final customer’s home. These types are marked with a 1 in the type list.

1

Some carcases are delivered **in individual sections** because of their size. These types are marked with a **2** in the type list.

2

The fronts with the number **2** are delivered separately and can therefore always be (dis-) assembled.

Suggested combinations

As an alternative to planning an individual unit from the complete range there is the possibility of choosing from specially suggested combinations. This eases planning. Incorporating accessories can enhance the suggested combinations. These are charged extra.

ICONIC AWARDS 2018
INNOVATIVE INTERIOR
winner

The **ICONIC AWARDS** aim to discover and award the best of all interior design areas. Initiated by the "German Bundestag" and sponsored by the German industry, the "Rat für Formgebung" (German Design Council) has promoted innovations within interiors for more than 60 years. We are proud to have been given these awards for the range NAVIS.

Media accessories for lowboards

IR repeater set

IR repeater set
Infrared signal transmission set for operating media units behind wooden/lacquered fronts. You can operate all the units in one compartment with one set. The following applies:

- One set must be used for each compartment. 2 transmitters can also be installed for large compartments in order to increase performance. In this case only one additional transmitter needs to be ordered.
- The transmitter must be placed in the direct vicinity of the receiver eye of the media unit.
- Transmissible IR frequency band 20 - 60 kHz
- Up to 3 transmitters can be combined with one receiver

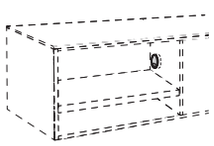
It is possible to use 3 transmitters via 1 receiver including Master box. This enables simultaneous operation of 3 different furniture compartments or in critical situations it allows fitting out one furniture compartment with several transmitters in order to increase the performance in this compartment or to operate 2 end units placed next to one another.

The IR repeater set consists of:
- 1 receiver eye (Ø 3.0 cm) incl. standing bracket
- 1 electrical transmitter
- 1 plug EVG 12 V
- Cable clips

Please note the details stated in the operating instructions!

IR repeater set 1 receiver eye and 1 transmitter incl. standing bracket
2001 -
Extra transmitter
2003 -

Cable aperture



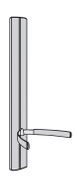
Cable aperture K20
silver-coloured; Ø 8.0 cm;
It is possible to fit a cable aperture in the centre partitions of lowboards.

K20 -

Column system, flat screen supports

Column system
consisting of a metal column (for fitting anywhere on wall) and of audio/DVD support(s), for fitting anywhere on column.

Example of use:



Columns
of metal; for fitting anywhere on walls above top rim of plinth slat; cables can be laid and hidden at any height; audio/DVD supports can be fitted anywhere on the column.

36.8 cm high	64.1 cm high
9201 -	**9202** -

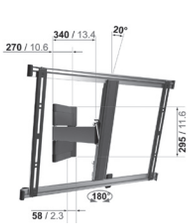
Audio/DVD support
of metal; can be positioned at any height on the column and be adjusted to suit audio/DVD players of any size; with rubber padding at front to prevent units from slipping; max. load: 10 kg

9203 -

Flat screen support WTL6
The flat screen support can be adjusted 3-dimensionally. It is suitable for flat screens with a screen diagonal of 102-216 cm (40“-85“); max. load: 45 kg.
Go to www.vivanco.de to check if your flat screen can be fitted on this flat screen support. Enter the name WTL6. After a few steps you can see if your flat screen TV is compatible with the flat screen support.
Suitable for Curved TV’s.
Flat screen support compatible with VESA Norm standard:
min.: 200 x 200 mm
max.: 600 x 400 mm

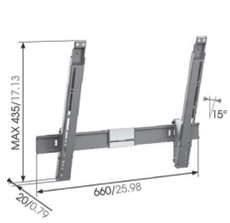
for fitting anywhere on wall
9704 -

Flat screen support THIN 345, ideally adaptable
The flat screen support can be adjusted 3-dimensionally. It is suitable for flat screens with a screen diagonal of 102-165 cm (40“-65“) and a maximum depth of 5.0 cm; max. load: 25 kg.
Go to www.vogels.com to check if your flat screen can be fitted on this flat screen support. Enter the name THIN 345. After a few steps you can see if your flat screen TV is compatible with the flat screen support.
Not suitable for Curved TV’s.
Flat screen support compatible with VESA Norm standard:
min.: 100 x 100 mm
max.: 600 x 400 mm



for fitting anywhere on wall
9304 -

Flat screen support THIN 315
The flat screen support can be angled up to a max. 15°. It is suitable for flat screens with a screen diagonal of 102-165 cm (40“-65“) and a maximum depth of 5.0 cm; max. load: 25 kg.
Go to www.vogels.com to check if your flat screen can be fitted on this flat screen support. Enter the name THIN 315. After a few steps you can see if your flat screen TV is compatible with the flat screen support.
Not suitable for Curved TV’s.
Flat screen support compatible with VESA Norm standard:
min.: 100 x 100 mm
max.: 600 x 400 mm



for fitting anywhere on wall

Lamps

This luminaire contains built-in LED lamps of the energy classes A++ to A. The lamps cannot be changed in the luminaire. 12 V	LED lamps incl. footswitch. A remote control unit is possible for operation (against a surcharge).			
Integrated LED spotlamp Ø 7.1 cm; for fitting in units	2.9 W **7941** -			
LED spot Ø 1.7 cm; swing-out; for fitting in unit sides	1.3 W **7961** -			
 **Interior LED lamp**	for 3 Raster height	for 4 Raster height	for 6 Raster height	for 9 Raster height
	3.8 W **322** -	5.2 W **422** -	7.9 W **622** -	12.1 W **922** -

Remote control unit with changing colours

The lamps are normally operated by an external footswitch. The colour temperature of the LED lamps is cold white if a footswitch is used. A 4-channel remote control unit is also available as an alternative, which is charged extra. Several lamps can be operated with each of the 4 channels. All 4 channels can be dimmed separately at the push of a button. The colour temperature of all 4 channels can be set to any level from cold white (approx. 6500 kelvin = the basic setting of the LED lamps) to warm white (approx. 2700 kelvin). If warm white is required, a remote control unit must be ordered. It is also possible to switch all channels on and off simultaneously with the “all on” or “all off” buttons. Up to 4 transmitters can operate as many receivers as required. The remote control unit consists of one transmitter and one receiver. If several receivers are required because of the arrangement of the units, these and the corresponding cables are provided ex-works (no surcharge). The footswitch is omitted when the remote control unit is used.

DINING Dining tables and chairs

DINING

hülsta offers a room concept to meet all requirements in comfort, beauty of form and attractiveness with a comprehensive collection of dining room tables and chairs.

The **dining tables** in a wide variety of sizes (with and without pullout function) in all wood surface versions and in contemporary designs, as well as the **dining chairs** that can be combined individually using different armrests, comfort features, high-grade cover fabrics (leather, textiles) and metal surfaces can all be found in the **"DINING"** type list.

Coffee tables CT 200

Coffee tables CT 200

If you love clear lines and gentle curves, you will find your perfect companions in the tables from **CT 200**. They take up the organic form of the elliptical units in NAVIS but also cut an elegant figure as solo units or when combined with one another. The arches of the coffee tables in metal, glass and ceramics open up the space in front of the sofa rather than enclosing it.

You will find the CT 200 coffee table as well as other coffee tables in the **"Coffee tables"** type list.

Coffee tables

Coffee tables

hülsta offers a comprehensive **collection of coffee tables**, which not only match the hülsta furniture ranges perfectly but can also be combined with other products that are available on the market. You will find these coffee tables in a number of designs, sizes and versions in the **"Coffee tables"** type list.

NAVIS

Special-sized products are possible on request.
Please get in touch with your customer advisor.

Special articles

Cover panels
for side and top panelling of fitted wardrobes (support construction and fitting materials must be acquired on site).

Basic price per order	**9901**	-
+ price per m^2 lacquer or veneer	**990**	-

Veneer match with fronts can not be guaranteed.

Individual special-sized products
If the special-sized product that you require is so unusual that it cannot be illustrated with the many special sized products that we already provide and charge for, then we will quote you the price using a HK unit type factor. In your order please state for us the relevant enquiry number and the HK unit type factor stated.

Special colours; Note on „Blue Angel“ / Emissions label of DGM

Special colours
All the hülsta lacquer colours are possible for nearly all the hülsta ranges.
Availability and prices on request.

Note on „Blue Angel“ (RAL-UZ 38) and Emissions label of DGM (Class A)
It is possible that the requirements of the „Blue Angel“ and the DGM Emissions Label cannot be met by some of the lacquer colours in price groups II and III (see here the different lacquer versions in the NURIA range), depending on the colour mix (surface ratio of these colours in the corresponding order). However, the legal requirements are definitely met in all cases!

Remote control unit with changing colours

The lamps are normally operated by an external footswitch. The colour temperature of the LED lamps is cold white if a footswitch is used. A 4-channel remote control unit is also available as an alternative, which is charged extra. Several lamps can be operated with each of the 4 channels. All 4 channels can be dimmed separately at the push of a button. The colour temperature of all 4 channels can be set to any level from cold white (approx. 6500 kelvin = the basic setting of the LED lamps) to warm white (approx. 2700 kelvin). If warm white is required, a remote control unit must be ordered. It is also possible to switch all channels on and off simultaneously with the “all on” or “all off” buttons. Up to 4 transmitters can operate as many receivers as required. The remote control unit consists of one transmitter and one receiver. If several receivers are required because of the arrangement of the units, these and the corresponding cables are provided ex-works (no surcharge). The footswitch is omitted when the remote control unit is used.

The following points must be noted with the radio remote control unit:
- The receiver must be positioned behind a rear wall or under plinth shelves (at least 20 mm space required under plinth shelves).
- The total wattage power of all lamps included per power supply unit/receiver must not exceed 30 W.
- 4 channels = 4 light groups
- 1 light group = x lights
- All lamps within a light group can be dimmed to the same brightness.
- The same light colour can be set for all lamps in all the light groups. This light colour is then valid for all the lamps.
- The remote control unit is not suitable for equipment operating on 110 V.

Please be sure to note the operating and programming instructions!

4-channel remote control unit with changing colours

4-channel remote control unit with changing colours

Type	**2019**	-

Examples of use (schematic diagrams)

Example 1

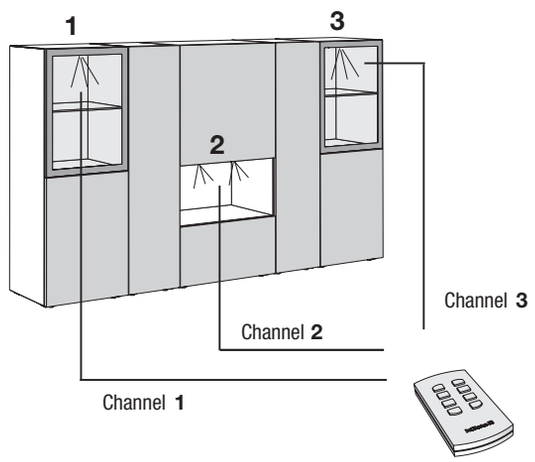
Lights inside a unit

Channel 1 operates (and dims) all the lights in light group 1,
i.e. the LED spotlamp in the left cabinet

Channel 2 operates (and dims) all the lights in light group 2,
i.e. the LED spotlamps in the open compartment

Channel 3 operates (and dims) all the lights in light group 3,
i.e. the LED spotlamp in the right cabinet

Notes:
The total wattage power of all lamps included per power supply unit/ receiver must not exceed 30 W. The same light colour can be set for all lamps in all the light groups. This light colour is then valid for all the lamps.



Example 2

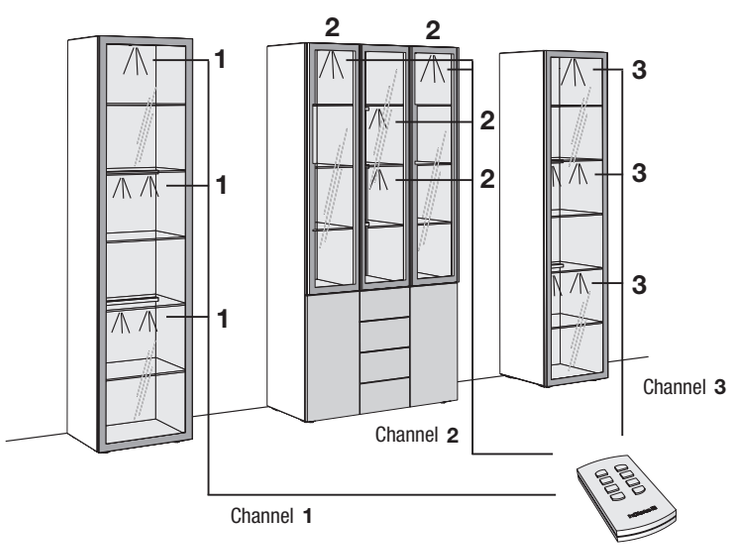
Lights in units set apart

Channel 1 operates (and dims) all the lights in light group 1,
i.e. the LED spotlamp and the LED light panels in the left cabinet

Channel 2 operates (and dims) all the lights in light group 2,
i.e. the LED spotlamps and the LED light panels in the centre cabinet

Channel 3 operates (and dims) all the lights in light group 3,
i.e. the LED spotlamp and the LED light panels in the right cabinet

Notes:
The total wattage power of all lamps included per power supply unit/ receiver must not exceed 30 W. The same light colour can be set for all lamps in all the light groups. This light colour is then valid for all the lamps.



Example 3

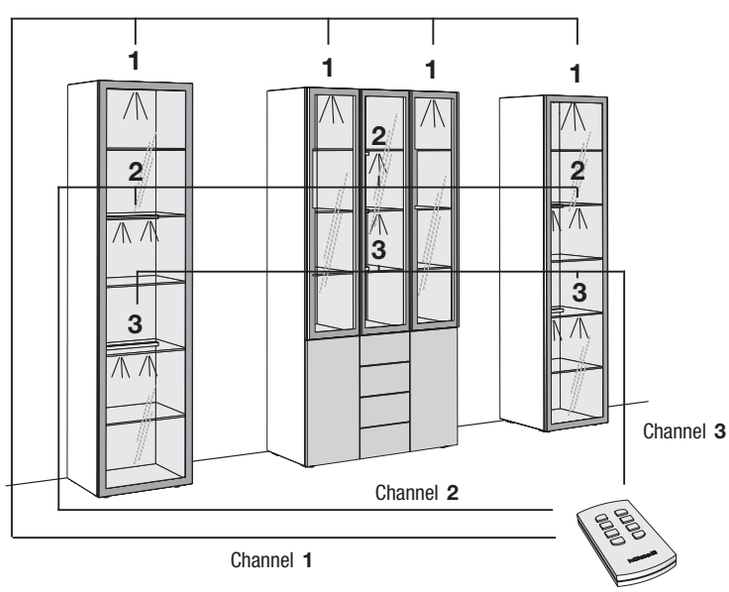
Lights in units set apart

Channel 1 operates (and dims) all the lights in light group 1,
i.e. the LED spotlamps in the left, centre and right cabinet

Channel 2 operates (and dims) all the lights in light group 2,
i.e. the top LED light panels in the left, centre and right cabinet

Channel 3 operates (and dims) all the lights in light group 3,
i.e. the bottom LED light panels in the left, centre and right cabinet

Notes:
The total wattage power of all lamps included per power supply unit/ receiver must not exceed 30 W. The same light colour can be set for all lamps in all the light groups. This light colour is then valid for all the lamps.



Important notes

Wall composition / assembly instruction

Important notes:
The composition of walls must be ascertained before concluding a contract and be checked by a qualified fitter before assembly takes place.

Assembly may only be carried out by a qualified fitter under careful observation of the assembly instructions.

The plastic Rawl plugs with the type name SX 8 x 65 from the Fischer Company supplied by hülsta as a standard set are only suitable for concrete ≥ C12/15, if the wall composition and compression strength corresponds to the table below. Under no circumstances must a unit be assembled on light masonry.

Furthermore, we provide a mounting set with assembly mortar from the Fischer Company for the types of walls listed below (see assembly mortar set below). Again, assembly must be carried out by a qualified fitter under careful observation of the wall composition and assembly instruction. The compression strength levels stated below must be met under all circumstances.

Materials table

with a description of which sets are to be used with the following types of walls:

Standard set (SX 8 x 65)	**Assembly mortar set** only suitable for the materials stated below!	
Concrete C12/15 Compression strength ≥ 15 N/mm² 	Building bricks Mz 12 Compression strength ≥ 12 N/mm²	 Solid blocks of light concrete V2 Compression strength ≥ 2 N/mm²
	Limestone blocks KS 12 Compression strength ≥ 12 N/mm²	Perforated blocks of light concrete Hbl 2 Compression strength ≥ 2 N/mm²
	Perforated sand lime bricks KSL12 Compression strength ≥ 12 N/mm²	Aerated concrete PP2 Compression strength ≥ 2 N/mm²
	 Vertically perforated bricks HLz 12 Compression strength ≥ 12 N/mm² Bulk density ≥ 1.0 kg/dm³	

A different and more suitable type of mounting must be chosen by a qualified fitter in all other cases. hülsta cannot accept any responsibility for the choice of any other types of mounting!
Please note that if the units are not mounted properly on the wall, there is a risk of the units falling down or tipping over – especially when alternative mounting materials acquired on site have been used.
Generally speaking, you as a dealer/qualified fitter are responsible for the correct wall mounting of the units.

Mounting sets

Labelling in type list drawings / assembly notes for wall units
The majority of units have two wall mounting points (= number of support boards), if these are to be fitted as wall units. This is not explicitly mentioned in the type list. If a different number of wall mounting points (= support boards) is required, this is marked in the drawings in the type list with numbers in black boxes. Every support board requires four mounting screws.

3 = 3 support boards
4 = 4 support boards, etc.

One **assembly mortar set** is sufficient for up to a maximum of 3 support boards or 4 wall side-panels.

Important note: Depending on the composition of the wall (see wall types illustrated above), assembly must be carried out using the special assembly mortar set and a standard trade mastic tool which are the basic essentials for safe and clean workmanship.

Standard set
The standard set consists of 4 plastic Rawl plugs (SX 8 x 65) and 4 mounting screws and is sufficient for 1 support board. The standard sets are included in the packet of fittings to match the number of support boards.

Assembly mortar set for up to a maximum of 3 support boards consisting of:

9x injection retaining sleeve
9x screw-in sleeve
1x injection cartridge
2x static mixer
1x assembly instructions

Please use the mounting screws from the standard set (supplied free of charge).

Example of order:

- Add up number of support boards for all existing unit types
- Divide the sum by “3”
- Round up the result to a full number

= Number of assembly mortar sets required

hülsta Planning Service

Lots to do? A customer wants his project finished and you haven't got enough time? Or the project is so complex that it will take too much time?

This is exactly the kind of situation we created the hülsta Planning Service for. hülsta's employees create the required project for you at short notice. Based on your information, we implement the project perfectly with all views and a complete order list ready for immediate forwarding to the customer.

The hülsta check list (available at **https://hulsta.com/de/service/showroom/)** makes it all really easy for you. You won't forget anything with this list and the customer receives a project he will be thrilled about as quickly as possible.

Workdays from 8.00 a.m. until 6.00 p.m.

SPECIAL WISHES? COME TO US!

Maximum individuality! – Maximal flexibility! – hülsta makes most of your special wishes possible. And if you do have a wish which is not quite so easy to implement, just give us a call or send us a mail or a fax. We have our own hülsta "Special Wishes Team" who are there to help you realise just these customer requests. These colleagues are professionals when it comes to special products. They plan and calculate the products possible for you and even develop an alternative suggestion if the idea should turn out to be technically impossible.

Here is an overview of the hülsta range of special wishes:
- A lot of special products can be ordered simply via the type list
- Special products are planned simply and professionally
- Competent colleagues advise you by phone, by fax and by mail
- You will be sent alternative suggestions if the idea is technically impossible
- Many special products are available without a surcharge
- Specially qualified carpenters and technicians implement your plans perfectly

hülsta Special Wishes Team
