

In the daytime now! no.14 has a quite solid form of design: classical, timeless, high-gloss – yet still quite sedate. Partly glass, partly lacquered, partly wood. Modest tones, perfect workmanship. Straightforward and yet playful: in now! no.14 you get the full range with atmospheric lighting effects. Sometimes quiet, sometimes loud, sometimes monochrome, sometimes coloured. And it changes with you to suit your mood and situation. A perfect match? Then just think about what little works of art you would like to exhibit under the glass bonnets with their bright alternating colours in now! no.14.
